

R80-100/150/200, R125-250*

BENEFITS

OPTIMAL TAILOR MADE DESIGN

- Robust construction
- Sustainable & long durability
- Quick replacement of the lining
- Enclosed leakage-free process
- Maintenance friendly
- Effective drum cleaning system
- Continuous & smooth operation

APPLICATIONS

- French fries and potato chips industry
- Starch and flour industry
- Pulp and paper industry
- Vegetable and fruit processing industry
- Waste processing industry
- Chemical industry

* Indicates sieve basket diameter
